To access your SAT®, PSAT/NMSQT®, PSAT™ 10, or PSAT™ 8/9 test scores, you'll need a College Board student account. Follow the steps below to access your scores:

1. **If you don't already have one, create a College Board Student Account**
   Go to studentscores.collegeboard.org and click Create Account.
   a. Use your full legal name that matches what your school has on file. You can also add a preferred first name if different from your legal name. Be ready to give basic information, including your gender, date of birth, email address (a permanent email address is recommended), high school name, expected high school graduation date, and mailing address.
   b. Include a parent or guardian name and email address and check the boxes to ensure that a parent or guardian will be cc’d on important emails from College Board.

2. **View Scores in the College Board Reporting Portal**
   To view your scores, go to studentscores.collegeboard.org and sign in. If your scores aren't shown, follow instructions on the Student Reporting Portal page after you sign in.
   Call College Board's student SAT help line at 866-756-7346 or PSAT-related assessments help line at 866-433-7728 if you need additional help viewing your scores.

If you need your PSAT-related assessments access code or SAT registration number, please reach out to your counselor. They can find this information on the roster detail report in the Educator Reporting Portal.
