

Kentucky SAT Technical Readiness Spring 2026

For District and School Technical Staff

January 2026

Today's Agenda

- Testing Windows and Deadlines
- The Tech Coordinator Role
- Network Preparations
- Ensure Devices Meet Requirements
- Installing & Updating Bluebook
- Digital Readiness Check Overview
- Using Accommodations on Digital Tests
- Questions & Answers

Enter questions in
the Q&A box
throughout the
webinar.

The presentation is being recorded. The recording and the deck will be posted at the Kentucky SAT website: <https://collegeboard.org/kentucky>.

Testing Window

KDE Spring 2026 Digital Testing Window

Monday, March 2 – Friday, April 10, 2026

- ✓ Note: This is different from previous college admissions exam state administrations. There are not separate windows for initial and make-up testing, all testing must occur during the 6-week window.
- ✓ **ALL** testing must be complete by April 10.

The Role of Technology Coordinator

Works with Test Coordinator and SSD Coordinator to meet student and administrator test day needs.

- Ensures devices used for testing meet technical specifications.
- Installs Bluebook™ on student devices for testing.
- Tests network configuration and checks internet connectivity in each testing room.

Test Coordinator

SSD Coordinator

Monitors

- Room
- Hall
- Technology

What is Bluebook?

Bluebook Digital Testing

Bluebook is an application that makes test day easier, quicker, and more secure.

All About Bluebook:

<https://bluebook.collegeboard.org/>

Download Bluebook:

<https://bluebook.app.collegeboard.org/>

About Bluebook updates and releases

- The Bluebook website always has the latest requirements.
- Expect **annual** tech requirement content updates every summer.
 - [**bluebook.collegeboard.org/technology**](https://bluebook.collegeboard.org/technology) content refresh twice a year, in time for fall and spring readiness activities.
- **OS minimums** are updated midyear only if necessary.
- **Recommended OS maximums** are updated after testing compatibility with Bluebook.
- An important **update to Bluebook** coming early next year - **make sure auto update is enabled**

For the latest Bluebook updates:
bluebook.org/tech-news

Technology Requirements

Device Requirements

For device readiness details see:
bluebook.org/devices

Windows
(laptop, desktop, or tablet)

Device should be plugged into a power source or be able to hold a charge for 3 hours for SAT.

Mac
(laptop or desktop)

Device must be able to connect to the school network via ethernet or Wi-Fi

School-managed Chromebook

iPad

If student is testing with extended time, make sure they have access to power for the duration of their testing time.

School-Managed Chromebooks

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/requirements

- You can only run Bluebook™ on a school-managed Chromebook—NOT personal Chromebooks.
- To confirm a Chromebook is school managed:
 1. Click on the clock at the bottom right of the screen;
 2. If it is school managed the managed device icon  will appear.
- Bluebook is supported on ChromeOS (Flex excluded) 132+
- Aligned to ChromeOS stable channel
- Bluebook requires at least 1 GB free storage.
- External mice are permitted.
- External keyboards are **not** permitted.

IMPORTANT: To avoid technical issues on test day, prevent any automatic updates until after the test.

Windows

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/requirements

- Windows 10 and 11 (Home, Pro, Education, and Enterprise).
Not supported: S mode and Windows SE.
- Bluebook requires at least 1 GB free storage.
- External mice are permitted (and recommended for tablets).
- External keyboards:
 - Laptops – not permitted
 - Tablet – required

MacOS

- Required minimum: macOS 12
- Recommended maximum: macOS 26.1
- Bluebook requires at least 1 GB free storage.
- External mice are permitted.
- External keyboards are not permitted for laptops.

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/requirements

iPads

- Required minimum: iPadOS 16.0
- Excluded: iPadOS 17.0.0–17.0.3 is not supported
- Recommended maximum: iPadOS 26.0.1
- At least 250 MB free storage.
- External mice and keyboards are permitted.

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/requirements

Network Requirements

Ensure Wi-Fi connectivity on test day for:

Students

- Loading the test
- Submitting responses
- Students can continue testing if connection drops during the test.

Testing Staff

Coordinators, proctors, and monitors

- Running Test Day Toolkit
- Must maintain a continuous connection, can run on a mobile device via web browser.

Bandwidth Requirements	
Test	Bandwidth
SAT School Day & PSAT-related Tests	200 Kbps

For the full set of requirements see:
bluebook.collegeboard.org/technology/networks

Network Readiness

Students can't test unless traffic to and from a few domains can bypass firewalls, content filters, proxy servers, and any other security appliances or software.

Bypass List

- *collegeboard.org
- *.sentry.io
- Apple App Store (if using iPads or Macs)

Reminders

For all domains on the bypass list:

- Exempt them from all **SSL/TLS decryption rules** if you're certificate pinning.
- Open the **443/TCP port and protocol** for them.
- Let them bypass **content filtering services**.

For the full set of requirements see:
bluebook.collegeboard.org/technology/networks

Network Readiness - Speed

Measuring Network Speed in Your Building

How many students can take a test in your building at the same time?

For the most accurate results, **run a speed test**:

- When network activity is like what is expected on the test day.
- In the same rooms expected to be used on test day.
- On the networks that test takers will be using.
- To account for normal fluctuation, run the test several times in each room.

For the full set of Requirements and Bandwidth Tips:
bluebook.collegeboard.org/technology/networks

Network Readiness – Capacity and Access Points

Room Capacity and Wireless Access Points (WAPs)

- For each testing room, compare the expected number of test takers to the device capacity of the WAPs within range.
- Refer to the manufacturer's best practices and device maximums for each WAP.
- Make sure the number of students assigned to the room is lower than the combined maximums of all WAPs within range—if possible, limit it to 75%.
- Assign even fewer students if environmental factors at your school could lower the room's true capacity.

For the full set of Requirements and Best Practices:
bluebook.collegeboard.org/technology/networks

Bluebook Installation

Installing Bluebook

Chromebook

- Runs in kiosk mode
- Available only on Chromebooks managed through the Admin console in Google Workspace.

Mac

- Available in the Mac app store as 'Bluebook Exams'.

iPads

- Available in the app store as 'Bluebook Exams'.

Windows

- Students need write access to their local folder to allow for installation and testing.

bluebook.app.collegeboard.org/

If I downloaded Bluebook for Fall 2025 PSAT/NMSQT testing, do I need to download and install again for Spring 2026 testing?

Managed Device Installation Highlights – OS-Specific

Windows

- **Bluebook is not a system-level installation. The application must be installed under the user account.** You can install to shared devices using individual profiles or a single profile (service account).
- **Allow read and write access to the AppData directory.** This allows for successful auto-update.
- **We strongly recommend upgrading to Windows 11** since Microsoft support ended for Windows 10 in October.
- Starting in **fall 2026**, Bluebook will no longer work on Windows 10.

The screenshot shows the Bluebook website's Windows Installation page. The page header includes 'Sign In', 'Search', 'For Students', and 'For Professionals'. The main content area is titled 'Windows Installation' and contains text about using Bluebook on school-managed and personal Windows devices. It also discusses keeping Bluebook up to date and provides a link to find out if an update is needed. A sidebar on the right features a blue button with the text 'Is it time for you to install or update Bluebook?' and a 'Find Out' button. Below the sidebar, 'Related Topics' are listed: Mac Installation, iPad Installation, Chromebook Installation, and Device Requirements.

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/windows

Managed Device Installation Highlights for Chromebooks

Chromebooks

- **Chromebooks must be managed** through the Google Admin console. Ensure you are managing devices not user accounts.
- Add the Bluebook extension within the app settings—do not install it separately.
- It is important to **sign out of Bluebook gracefully**, as hard shutdowns can cause the extension to be corrupted.
- The **auto-connect network setting** will prevent students from using Bluebook outside your school's network.
 - To avoid this issue, change the auto-connect setting to "unrestricted".

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/chromebook

Why isn't the Bluebook app loading of any of my Chromebooks?

Managed Device Installation Highlights for Mac

Mac

Installation options:

- Deploy the app to multiple devices. Use your mobile device management (MDM) platform to distribute the app.

Important:

- Guest users who don't have an internet connection when their test ends might be unable to submit their answers later because **all guest user data is deleted as soon as the user signs out of the device**.

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/mac

Managed Device Installation Highlights – for iPads

iPads

Installation options:

- Deploy the app to multiple devices. Use your mobile device management (MDM) platform to distribute the app.

IMPORTANT: Disable guided access mode. Guided access mode can interfere with assessment mode, which is a requirement for successful Bluebook testing

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices/iPad

Managed Device Best Practices

Enable auto update

Students must always test on the latest version of Bluebook:

- If installed properly, Bluebook performs routine updates automatically whenever students launch it. Review device-specific installation information at:
bluebook.collegeboard.org/technology/devices

Before testing, **disable or quit writing assistants (such as Grammarly), content filters, proxies, VPNs, parental controls, and other software that opens on startup.**

- These could affect Bluebook's ability to enable Lock Down Mode and may result in students being presented with error messages.
- Refer to the Bluebook network requirements to properly configure content filters to bypass filtering.

For the full set of requirements see:
bluebook.collegeboard.org/technology/devices

Updates for 2026

- **Verified Mode for Chromebooks**

Chromebook Requirement: Verified Mode

What to Know

- Starting in 2026, Bluebook won't work on Chromebooks unless verified mode is enabled. We do not have an exact date of implementation as of yet, but it **won't be required** for Spring 2026 KY Junior State Administration.
- This new security measure was announced in July 2025.

What to Do

- If Bluebook is already installed, enable the setting in the Google Admin console.
- If Bluebook is not already installed, enable the setting during installation.

Step-by-step instructions:
bluebook.org/verified-mode

How can I tell if verified mode is configured correctly?

Verified Mode on Chromebooks

- New requirements

- Open Bluebook on a testing device.
- Click the 'Test Your Device' button on the sign in screen.

Green check = Verified Mode has been enabled

Readiness Check Overview

Student Readiness Check Screen-by-Screen

Purpose

- Ensure testing devices meet technical requirements
- Ensure Bluebook™ is installed correctly
- Complete Exam Set-Up process
 - Review privacy policy and use of this app statement
 - Provide (optional) test taker information
 - Opt into BigFuture School and Connections opportunities if desired
 - Add Free Score Sends for SAT
- Explore platform functions and universal accessibility features
- Receive Test Preview with sample questions and see how to access Full-Length Practice Tests equipped with student's specific accommodations, if applicable

5 – 10 Minutes
Required before testing

Recommended 20 Minutes - Optional

Student Readiness Check: SAT Testing Rules

7. Review & Agree to Test Taker Rules

The screenshot shows a web-based application for reviewing SAT testing rules. At the top, there are navigation links: a question mark icon for Help, a 'Return to Home' button with a house icon, and a 'Return to Home' button with a house icon. The main title is 'SAT Testing Rules'. Below the title, there is a section titled 'Introduction' with a detailed description of the legal contract between the user and College Board. It states that the 'Testing Rules', 'Terms and Conditions', or 'Agreement' are a legal contract between the user and College Board ('College Board' or 'we'). It specifies that the rules apply to taking the digital SAT® ('SAT' or 'SAT School Day'). The text emphasizes that disputes will be resolved through binding arbitration, which means the user is waiving their right to a court of law. Below this, there is a section titled 'Section 1. Requirements for the SAT' with a description of the testing environment and device. At the bottom, there are 'Back' and 'Next' buttons, and a progress bar indicating 'Step 2 of 8'.

SAT Testing Rules

Introduction

These Testing Rules ("Testing Rules," "Terms and Conditions," or "Agreement") are a legal contract between you and College Board ("College Board" or "we"). They set forth important rules and policies you must follow related to taking the digital SAT® ("SAT" or "SAT School Day"). Please read these carefully.

All disputes between you and College Board will be resolved through binding arbitration in accordance with Section 9 of this Agreement. You understand that by agreeing to arbitration, you are waiving your right to resolve disputes in a court of law by a judge or jury except as otherwise set forth in this Agreement.

Section 1. Requirements for the SAT

The SAT School Day is taken at a school (typically a school you attend) ("your school") on a Testing Device as defined below. It is administered on Bluebook™, the College Board digital testing application ("Exam App") that is

Student Readiness Check: Checklist

12. Review Test Day Checklist

The screenshot shows a mobile application interface for a 'Test Day Checklist'. At the top, there are 'Help' and 'Return to Home' buttons. The main title 'Test Day Checklist' is centered above two columns of instructions: 'REQUIRED:' and 'PROHIBITED:'.

REQUIRED:

-  You must have a fully charged device—it needs to stay on for roughly 3 hours. You may test with a personal device or a school-managed device.
-  If you're testing at a school you don't attend, you'll need a [valid photo ID](#).
-  Follow all safety procedures at your school or test center.

ALLOWED:

-  You can have a power cord or a portable charger, but we can't guarantee you'll have access to an outlet.
-  There's a graphing calculator built into the app, but you can also bring your own [approved calculator](#).
-  You can use an external mouse or keyboard. External keyboards are allowed with tablets—not with laptops.
-  You're allowed snacks and water, but only during breaks.

PROHIBITED:

-  Other applications—you must close all other apps and programs while the test is in progress.
-  Notes, books, or any other reference materials.
-  You will be provided scratch paper, but you may not bring your own.
-  Headphones or earbuds—unless you have a College Board-approved accommodation.
-  Any camera, recording device, or timer.
-  Mobile phones and smartwatches are prohibited. If you bring one, the proctor may collect it before the test.

At the bottom, there are 'Back' and 'Next' buttons, with 'Step 7 of 8' centered between them.

Student Readiness Check: Exam Setup is Complete

Exam Set-Up Complete

Recommended:

- Take some time after exam set-up is complete to enable students to use the Test Preview provided in Bluebook™ with support from proctor/teacher.
- Full-length practice tests are available for each test, with the option to enable some accommodations for a full test day experience.

Exam Setup Is Complete

Before test day: Return to home and start practicing.

On test day: Return to home and start check-in.

[Return to Home](#)

SAT Bluebook™ Practice Tests

Accessing Full-Length Practice Tests

- Practice tests are available anytime of the year by signing into Bluebook™ **with College Board account credentials** (anyone can create a College Board student account at www.collegeboard.org), and are also available for Spring 2026 by signing into Bluebook™ **with that student's Sign-In Ticket credentials** printed out from Test Day Toolkit in early February 2026.
- Single-click access is always from the student's home screen in Bluebook™
- No time lost for exiting and coming back
- Retake as often as you want
- Scored – students can access reports in mypractice.collegeboard.org.

Using Accommodations on Digital Tests

Reminders

- Text-to-Speech is an embedded tool in Bluebook. No additional configuration is required.
- The floating accessibility menu in Chrome does not need to be enabled for embedded TTS to work.
- An approved accommodation request for embedded TTS must be available for the tool to work on test day.
- If a student has a testing accommodation for a screen reader (such as JAWS), this still requires device configuration.
- Dictation using speech-to-text still requires additional device configuration. [Visit the College Board assistive technology website for more information.](#)
- Please work with your school test and SSD coordinator to identify the students who may require this accommodation.
