PSAT 10 Practice Test Worksheet: Section and Total Scores

Conversion: Calculate Your Section and Total Scores

Enter the number of correct answers (raw scores) from the grid-in (pencil) page for each of the modules in the boxes below and add them together to get your section raw score. Then add the section raw scores in the first columns of the table below and then enter the corresponding lower and upper values in the two columns boxes. Add each of your lower and upper values for the test sections separately to calculate your total PSAT 10 score range.

[illegible]

Get Section and Total Scores

Section and total scores for the paper version of this PSAT 10 practice test are expressed as ranges. That’s because the scoring method described in this guide is a simplified (and therefore slightly less precise) version of the one used in the actual test.

To obtain your Reading and Writing and Math section scores, use the provided answer key to determine the number of questions you answered correctly in each section. These numbers constitute your raw scores for the two sections. Use the provided table to convert your raw score for each section into a scaled score range consisting of a lower and upper value. Add the two lower values together and the two upper values together to obtain your total score range.

GET YOUR READING AND WRITING SECTION SCORE

Calculate your PSAT 10 Reading and Writing section score (it’s on a scale of 160–760).

- 1 Use the answer key on page 4 to find the number of questions in module 1 and module 2 that you answered correctly.
- 2 To determine your Reading and Writing raw score, add the number of correct answers you got on module 1 and module 2.
- 3 Use the Raw Score Conversion Table: Section Scores on page 5 to turn your raw score into your Reading and Writing section score.
- 4 The lower and upper values associated with your raw score establish the range of scores you might expect to receive had this been an actual test.

GET YOUR MATH SECTION SCORE

Calculate your PSAT 10 Math section score (it’s on a scale of 160–760).

- 1 Use the answer key on page 4 to find the number of questions in module 1 and module 2 that you answered correctly.
- 2 To determine your Math raw score, add the number of correct answers you got on module 1 and module 2.
- 3 Use the Raw Score Conversion Table: Section Scores on page 5 to turn your raw score into your Math section score.
- 4 The lower and upper values associated with your raw score establish the range of scores you might expect to receive had this been an actual test.

GET YOUR TOTAL SCORE

Add together the lower values for the Reading and Writing and Math sections, and then add together the upper values for the two sections. The result is your total score, expressed as a range, for this PSAT 10 practice test. The total score is on a scale of 320–1520.

1 Total Score 320–1520 Scale	Total Score	
2 Section Scores 160–760 Scale	Reading and Writing	Math
	Modules 1 & 2	Modules 1 & 2

Your total score on this PSAT 10 practice test is the sum of your Reading and Writing section score and your Math section score. On this paper version of the PSAT 10 practice test, you’ll receive a lower and upper score for each test section and the total score. This is the range of scores that you might expect to receive.

Use the worksheets on pages 4 and 5 to calculate your section and total scores.
