PSAT 10

Understanding Scores

For Students and Families

PSAT 10 Score Resources

Congratulations to your student for taking the PSAT 10. Included is information about scores that may be helpful for students and their families.

What's Included

This document delves deeper into the meaning of your student's scores, including what the assessment measures, how it is scored, and how students and their families can use the data to monitor their progress. The document also provides:

- Information about estimating how much a score may change from the PSAT 10 to the SAT.
- A sample PDF score report walk-through so you can interpret your student's score reports.

Related Resources

Visit sat.org/scores to find information about:

- Score release dates
- Managing access to online scores
- Resources for online score reports
- Downloadable Understanding Scores for Students and Families documents

About College Board

College Board reaches more than 7 million students a year, helping them navigate the path from high school to college and career. Our not-for-profit membership organization was founded more than 120 years ago. We pioneered programs like the SAT[®] and AP[®] to expand opportunities for students and help them develop the skills they need. Our BigFuture[®] program helps students plan for college, pay for college, and explore careers. Learn more at cb.org.

The PSAT 10 and the SAT Suite of Assessments

How the SAT Suite of Assessments Works

The SAT® Suite of Assessments is an integrated system of tests that includes the SAT (for students in grades 11 and 12), the PSAT/NMSQT® and the PSAT 10™ (for grades 10 and 11), and the PSAT 8/9™ (for grades 8 and 9). The tests measure the same skills and knowledge in grade-appropriate ways. They work together to show college readiness over time so educators, students, and parents can monitor student progress. Their content reflects the kind of meaningful, engaging, and challenging work that students find in middle school and high school courses taught today.

How the PSAT 10 Is Organized

The SAT Suite uses multistage adaptive testing (MST). Relying on MST means we can fairly and accurately measure the same things with a shorter, more secure test while preserving test reliability. Both the Reading and Writing and the Math sections are divided into two equal-length and separately timed stages, each composed of a module of questions. The first module contains a mix of easy, medium, and hard questions. Based on how a student performs on the first module, the second module of questions will either be more difficult or less difficult. By adapting to a student's performance level, the responsive test will provide students with a more efficient assessment of their academic strengths.

How the PSAT 10 Is Scored

The SAT Suite uses a multistage adaptive test design and item response theory (IRT) methodology to precisely measure students' knowledge and skills with fewer questions in less time. Every test includes a standardized set of question types and measures the same content domains, so all students have the same opportunity to demonstrate their strengths. Your scores depend on several factors, including whether you answer questions right or wrong, the difficulty level of the questions, and the probability that you might be guessing. For most students, it's better to guess than leave a question blank, especially if you can eliminate one or two wrong answers first. To learn more about how assessments in the SAT Suite adapt to your performance, watch our [What Is Digital SAT Adaptive Testing?](#) video.

PSAT 10 Scores

TEST SCORING

PSAT 10 Score Reported	Details	Score Range
Section Scores (2)	▪ Reading and Writing (RW)	▪ 160–760
	▪ Math (M)	▪ 160–760
Total Score	Sum of the 2 section scores	320–1520

Accessing Official Student Scores

U.S. students who took the PSAT 10 and provided a mobile phone number during testing can view their scores on the BigFuture® School app. For more information, see page 13 in this document, or go to satsuite.org/k12bigfutureschool.

NOTE: The BigFuture School app is available to U.S. students age 13 and over.

Your student's school has access to a downloadable PDF called *Your Score Report* for every PSAT 10 test taker. Students can review this score report with educators at their school and share it with their families.

As always, students age 13 and older may use a personal College Board student account to view additional insights online.

Using PSAT 10 Scores to Predict Scores on Other Assessments

The SAT Suite—from the PSAT 8/9 through the SAT—uses a common score scale for the total and section scores. The ranges reported for each assessment reflect grade-level appropriateness within the common score scale. Thus, while the total range for the SAT is 400–1600, the total range for the PSAT 10 is 320–1520.

This common score scale means that a student who took the PSAT 10 and received a Math section score of 500 would be expected to also get a 500 on the SAT, PSAT/NMSQT, or PSAT 8/9 if they had taken any of those tests on that same day; a score of 500 represents the same level of academic achievement on all 4 assessments.

This also means that student growth across the SAT Suite is easy to determine. If a student takes the PSAT 10 this year and receives a 500 Math section score, then takes the PSAT/NMSQT or SAT next year and earns a 550 Math section score, that student has shown a growth of 50 points, which likely resulted from hard work both in and out of school.

Overview of the Score Report PDF

In the official score report PDF, the student can view the three scores available from their PSAT 10 assessment—total score, Reading and Writing section score, and Math section score.

For each score, the official score report PDF also includes:

- The range of possible total scores: 320–1520 for total score, and 160–760 for section scores.
- The All Tester Percentile of each score. For example, if a student's score is in the 70th percentile, 70% of a comparison group achieved scores at or below that student's score.
- The total and section Average Score of all testers based on all PSAT 10 test takers across the last 3 years.

All Tester Percentiles are based on the actual scores of the past 3 cohorts of students who took the PSAT 10 in 10th or 11th grade, for tests completed anywhere in the world. Students in 10th grade are provided the 10th-grade percentile, and students in 11th grade are provided the 11th-grade percentile. Students testing outside of these grades are provided the nearest percentile to their grade (e.g., a 7th grader is provided the 8th-grade percentile).

Guidance Purposes Only

If Guidance Purposes Only appears at the top of the score report, this means that College Board was unable to confirm that a complete set of responses was available when the test was scored and scores reflect only the responses available to us. While these scores are reported to the student, school, district, and state, they can be used for educational guidance purposes only.

Individual Score Ranges

A student's ability is better represented by score ranges than points. Score ranges are derived from the standard error of measurement and show how much a student's scores would likely vary if they took a different administration of the test under identical conditions.

Knowledge and Skills

Students can view a graphic showing their performance on each of the eight content domains measured on the PSAT 10. There are four content domains in Reading and Writing and four in Math.

In each content domain, students can view:

- The approximate number of questions in the content domain and what percentage of the section that represents (e.g., 12–14 questions would be about 26% of the Reading and Writing section).
- A visual indication of how the student performed in each content domain.

Students can use this section to identify content domains they may want to focus on to practice and improve.

Additional Support

The score report includes a Career Insights Snapshot, a list of growing careers in a student's state that connect to their scores. These careers are examples, not recommendations, and can inspire career exploration earlier in high school.

The last section of the score report PDF focuses on next steps the student can take after reviewing their scores. Students can use the provided QR code or link to access more information on tools and services related to these next steps, which include reviewing additional insights on their scores, Official SAT Prep on Khan Academy®, and college and career exploration.

Benchmarks

What the PSAT 10 Grade-Level Benchmarks Mean

The PSAT 10 grade-level benchmarks are based on expected student growth toward SAT [College and Career Readiness Benchmarks](#) at each grade. The benchmarks are set at the section level, so there is a benchmark for Reading and Writing and a benchmark for Math. Students meeting or exceeding these benchmarks are considered on track to be college ready.

PSAT 10 GRADE-LEVEL BENCHMARKS

	Reading and Writing	Math
10th grade	430	480
11th grade	460	510

Through the online K–12 score reporting portal, the PSAT 10 reports separate benchmarks for students in 10th grade and 11th grade to help teachers understand students’ level of readiness for college and career training programs. Equipped with this information, teachers can address challenge areas for their students while there is still time for improvement. Teachers can also accelerate the progress of students who meet or exceed the benchmarks.

How to Use Scores

How Schools May Use Scores

Through our K–12 score reporting portal, educators can access the official downloadable score report PDF for printing and sharing with the student. Educators can also see additional interpretive insights about the student’s results. The PDF, titled *Your Score Report*, (sample shown on page 8) clearly summarizes a student’s current achievement levels and encourages next steps to increase college and career readiness. Teachers can review the official score report PDFs with students to help them understand what their scores mean. Reviewing their scores can also help students see their strengths, which can increase their confidence and help them identify content domains where they can handle more advanced coursework.

How Students and Families May Use Scores

The PSAT 10 student score report provides students and families with three ways to understand their scores.

- Help your student think of ways to develop each of the skills they have identified for focus and improvement. [Official SAT Prep on Khan Academy](#) can help supplement this work, and when your student is ready, they can take practice tests in Bluebook™ and review the results on [My Practice](#) to learn more about what their practice scores mean. They can also build skills with the SAT [Question of the Day](#), which provides a gamified, interactive way to work on a Reading and Writing or Math question each day.
- Use the career examples to talk about career interests and options with your student.
- Compare your student’s scores to the grade-level benchmarks together to understand what those scores mean.
 - ◆ If your student is meeting the benchmark for a section, remind them to continue to take rigorous courses and work hard to stay on track for college success.
 - ◆ If your student is not meeting the benchmark for a section, work with their teacher to connect them to classroom work that is focused on areas that need improvement.

Benchmarks shouldn’t be used to assign academic tracks, to discourage students from pursuing college, or to keep students from participating in challenging courses. Rather, the benchmarks are intended to help all students better prepare for life after high school.

The PSAT 10 Score Report

A Case Study: Sample PSAT 10 Score Report

Take a look at the sample score report below and on the next page. Use the corresponding information to help you interpret your student's PSAT 10 score report.

1 What are Parker's scores?

Parker's Reading and Writing score is 620, and his Math score is 500, for a total score of 1120.

Below his individual scores, he can see a score range, which shows the range of scores he might expect to get if he took the PSAT 10 multiple times. Parker can also see an average score of all testers in any grade who have taken the PSAT 10 in the last three years.

2 What are Parker's score percentiles?

Since Parker is in 10th grade, the percentiles compare his scores with those of all 10th graders around the world who took the PSAT 10 in the last 3 years. Parker scored as well as or better in Reading and Writing than 60% of all 10th-grade testers. In Math, he scored as well as or better than 70% of all 10th-grade testers. Putting both scores together, Parker scored as well as or better than 75% of students in his grade on the PSAT 10 as a whole.

3 What can Parker learn from this Knowledge and Skills section?

This section shows Parker a graphical progress bar in each of the eight content domains measured on the PSAT 10. The filled-in part of each progress bar represents Parker's level of mastery in that content domain, not his actual score. Under each content domain, Parker can also see what percentage of the test and number of questions cover that domain.

The Performance range below each filled section shows Parker's score band for that domain. For more information about content domains, visit satsuite.collegeboard.org/practice/content-domains.

Score Report

4 What can Parker learn from this career snapshot?

Since he is based in the U.S., Parker's score report includes a Career Insights Snapshot—helpful information about growing careers in his state that connect to his scores. Whether Parker sees a career he's curious about or not, the examples can spark his interest in learning more about what careers are out there and key information like median yearly income, expected growth rate for new job openings in his state over the next five years, and the most common education level for people in that career. While these might be careers worth watching in Parker's state, he can learn more about careers that reflect his interests at satsuite.org/whatsnext.

How can Parker learn more about his scores?

If he's under age 13, Parker can talk to his school counselor to see his full score report and learn how to prepare for future assessments in the SAT Suite. If Parker is age 13 or older, he can also choose to visit sat.org/scores to personally find out this information.

How can Parker measure his progress?

Since Parker is in 10th grade, he can take the PSAT/NMSQT or SAT to measure the progress he's made since he took the PSAT 10.

Parker can continue to take advantage of practice resources by visiting sat.org/practice.

Score Report

Spring 2026 PSAT 10 Understanding Scores for Students and Families

9

Additional PSAT 10 Insights

Students age 13 or older who already have a personal College Board student account can get additional insights into their performance on the PSAT 10 in the online student scores portal at studentscores.collegeboard.org.

Putting Scores in Context

Score Comparisons

Students can gain additional insights into their scores by meeting with their school counselor to review their score report. They can also see more contextual comparisons of their scores in the student scores portal. Students can compare their total and section scores to the average scores of all testers across the last three years in their:

- School (as applicable)
- District (public schools, as applicable)
- State (U.S.-based and territories)
- All Testers (domestic and international)

Percentiles

The additional insights provided online include percentiles not provided in the downloadable score report PDF. The percentile ranks include:

- Country (all testers in the student's country)
- State (all testers in the student's state, available for U.S. and U.S. territories only)
- All Testers (domestic and international)

For the percentiles above, the student's score is ranked among testers from the last 3 years, i.e., students who took the PSAT 10 in the 10th grade in the last 3 years.

Total Score Comparisons

Compare your score to the average scores of other 10th grade test takers.

Your Score

1120

Your School (Avg.)

1000

3-year average score of 300 test takers from your school

Your District (Avg.)

1050

3-year average score of 5,000 test takers from your district

Your State (Avg.)

1190

3-year average score of 15,000 test takers from your state

Your Country (Avg.)

1200

3-year average score of 200,000 test takers from your country

All Testers (Avg.)

1000

3-year average score of 300,000 test takers from all testers

Online score insights

Section Benchmarks

Other insights students can view in the online scores portal are the section-level readiness benchmarks. We will indicate if the student has met the section benchmark or not, providing links to resources to help them analyze what skills to focus on for improvement.

Additionally, we show students their score ranges and provide a link to information about how a score range more accurately reflects their level of knowledge and skills than a single score.

Section Scores

The PSAT 10 Reading and Writing section and Math section both focus on the necessary skills for college and career success. View your section scores and compare them against our readiness benchmarks. [Learn more about benchmarks.](#)

Reading and Writing

You've met the Reading and Writing benchmark (430)! [Learn which Reading and Writing skills can help you improve.](#)

Your Score Range: 690-650

The Reading and Writing benchmark for the PSAT/NMSQT is 460. If you plan to take the PSAT/NMSQT next year, we estimate you'll score between 680-720

Math

You've met the Math benchmark (480)! [Learn which Math skills can help you improve.](#)

Your Score Range: 470-530

The Math benchmark for the PSAT/NMSQT is 510. If you plan to take the PSAT/NMSQT next year, we estimate you'll score between 560-600.

Online score insights

More About Knowledge and Skills

Based on our Skills Insight™ tool, we provide students with a deeper dive into the knowledge and skills measured by the PSAT 10. Students may view a breakdown of their knowledge and skills across four content domains in Reading and Writing and four content domains in Math.

The online insights go further by helping students view their performance across seven defined performance score bands to get a sense of how they did in each domain.

Students can click **View skills and example questions in the next score band** to access the Skills Insight tool and see skills and example questions that students in the next performance score band are typically able to demonstrate, as well as examples of the kinds of questions these students are likely able to answer correctly.

Students can navigate to any other performance score band in the Skills Insight tool, including their current performance score band.

Career Exploration

To expand on the information in their downloadable score report PDF, students can:

- View even more potential careers online at bigfuture.org.
- Explore careers tailored to their interests with Career Quiz.
- Find free resources to help them take the next steps down their career path.

Further Guidance

Students can view next steps with linked resources to do more with their score, including:

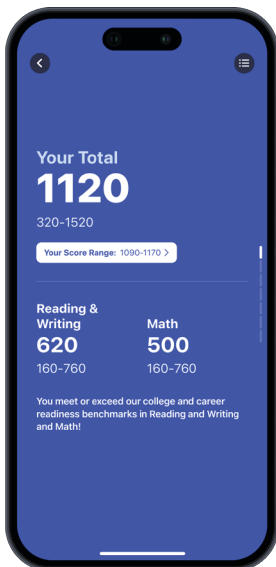

- Finding practice resources to improve their score.
- Learning more about the SAT Suite of Assessments.
- Planning for their future with their PSAT 10 score using BigFuture School if they have access or at bigfuture.org.

Doing More with Your Score: BigFuture School and Connections

BigFuture School is a free mobile app for students age 13 and older who take the PSAT 8/9, PSAT 10, PSAT/NMSQT, or SAT School Day in the United States. It's designed for students to use to get their test scores easily, explore customized guidance on college and career planning, and learn about financial aid and scholarships. Students may also have the opportunity to opt in to Connections™—a program that lets students discover nonprofit colleges, scholarship providers, and government agencies offering educational programs that may be a good fit and are looking for students like them. Connections puts privacy first. No personal information is shared with institutions unless a student directly chooses to do so. Please know that your school, district, or state may choose to not provide access to Connections for its students or students who test at their schools.

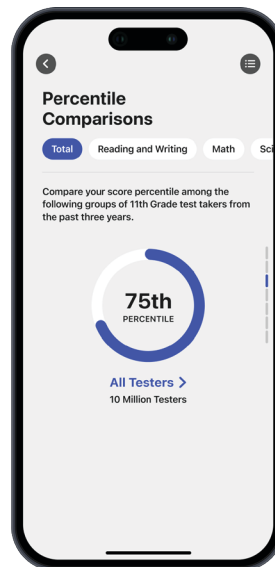

If your student provided a mobile phone number when they took the PSAT 10, they can download the BigFuture School mobile app, which will alert them via text notification when their scores are available in the app.

Students who choose not to download the BigFuture School app or who don't have a mobile phone can still access their scores and guidance for future planning. Schools will continue to receive PDF score reports for all assessments they administer, which can be shared with students. And, as always, students can log in to their personal College Board accounts at studentscores.collegeboard.org to get additional insights about their scores and explore BigFuture.org.

Total and Section Scores

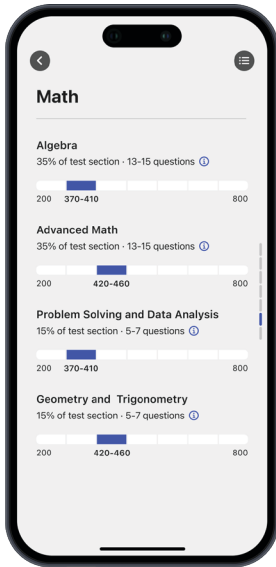

The first thing students will see in BigFuture School is their total score, which is a combination of their scores on the Reading and Writing and Math sections.

Percentile Comparisons

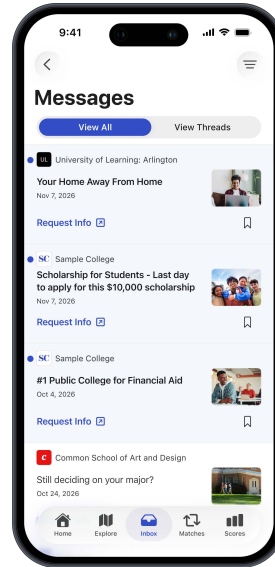

Students will be able to see percentile comparisons that help them understand the percentage of students scoring the same as or better than they did.

For example, 75th percentile means that their score was the same as or higher than 75% of other students.

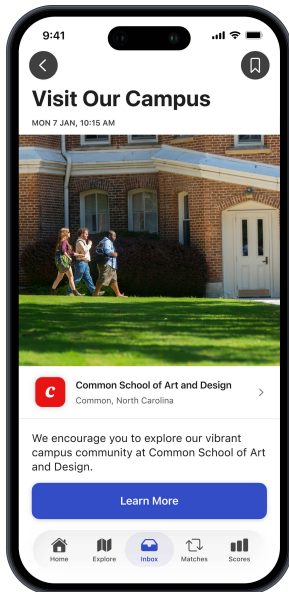

Performance Score Bands

This information corresponds with the Knowledge and Skills section on the score report PDF. It shows students their performance on each content domain measured on the test. Students can use our **Skills Insight tool** to see examples of the kinds of questions students in any score band, including their own, are able to answer correctly.

Customized College and Career Messages

While students are in the BigFuture School app, they can explore messages about financial aid, scholarships, and guidance to help them plan for college and explore careers.

Connections

Eligible students may also have the option to discover nonprofit colleges, scholarship providers, and government agencies offering education programs by opting in to a program called Connections.
