
SAT Fee Waiver Codes

Accessing Codes and Frequently Asked Questions (FAQs)

Delivering fee waivers through the [K-12 score reporting portal](#) is a streamlined process that allows access to benefits for all eligible students.

-  On August 14, 2025, all existing fee waiver codes expired. Schools will now have a new set of fee waiver codes (beginning with **FW25**) in the K-12 score reporting portal. Please be sure to distribute these new codes to all eligible students who have not yet redeemed one of the past codes in their account to activate their fee waiver benefits.
-  Schools received SAT® fee waivers through College Board's K-12 score reporting portal in August and can use them for upcoming SAT administrations. In the K-12 score reporting portal, go to the Downloadable Reports tab and then select **Other Report Downloads**. You must have detail- or summary-level access to view these reports.
-  If you need assistance accessing the K-12 score reporting portal, please ask your school's access manager to grant you detail or summary access or consult the K-12 score reporting portal [Help page](#).

FAQs

In the Other Report Downloads, how will I know which file contains the fee waiver codes?

The fee waiver code file will be in a spreadsheet or .csv file that uses the following naming convention: **[Start of School Year]_SAT_Fee_Waiver_Codes_[Your AI Code].csv**. For example, a school receiving fee waiver codes for the 2025-26 year with AI code 123456 would have a file named **2025_SAT_Fee_Waiver_Codes_123456.csv**. The new fee waiver codes will start with **FW25**. You should be able to open the .csv file using Microsoft Excel on a PC or the Numbers app on a Mac. If you have trouble opening the file, contact your IT department.

How do I distribute fee waiver codes?

Schools use a variety of methods to distribute fee waiver codes to students. You should do what works best for your school. Some schools email the codes to students, offering an easy-to-find record of each fee waiver code and the date sent to each student. Emailing codes also allows students to copy and paste the code when registering online for the SAT. You may want to maintain and track the fee waiver codes that are distributed through the school year. It may be helpful to use our [Educator SAT Fee Waiver Codes Tracking Form](#). Use the Roster Report to confirm students who have tested using a fee waiver code.

For additional strategies, refer to [Strategies for Using SAT Fee Waiver Codes](#).

Can I save the fee waiver code file to my laptop/computer?

Yes. We recommend saving to a shared file so you and your colleagues can track code distribution together and avoid distributing the same code to different students.

How can I determine who has fee waiver benefits?

The Roster Report in the K–12 score reporting portal indicates whether a student has used a fee waiver to register for the SAT. Navigate to the Roster Report by selecting “All Students’ Scores” from the home page. In order to view which codes were used, please contact SAT Educator Support for a usage report.

What will happen to the fee waiver codes I was tracking before the new ones are sent in August?

The existing fee waiver codes will expire at 11:59 p.m ET on August 13, 2025. After that time, the codes or the files containing them will no longer be accessible in your K–12 score reporting portal. If you are tracking any students who have one of these codes, encourage them to activate their benefits before the code expires on August 13. After that date, distribute new fee waiver codes to all eligible students.

If a student already has access to their SAT Fee Waiver Benefits, do they need a code?

No, if a student already has access to their SAT Fee Waiver Benefits, the student does not need an electronic fee waiver code. The student should be able to see their benefits in their College Board account and will not be prompted to enter a fee waiver code when requesting score reports or registering to take the SAT.

Can a student get use multiple codes to get additional benefits?

No, a student can only receive SAT Fee Waiver benefits once. The full list of benefits can be found [online](#). Students can see their benefits in their College Board account.

Does the student use the same code for each request (SAT registration, score reports, etc.)?

The code will allow the student to register for 2 SATs, send unlimited score reports and other benefits. Once the code is applied either through registration or through the score sending flow, the student will see what benefits remain via his/her account on the SAT Homepage. See below for how code entry will appear.

The screenshot shows the 'Send Scores' page in the SAT Suite interface. At the top, there's a blue header with 'SAT Suite' and a user profile 'Hi, Marina'. Below the header, the main title 'Send Scores' is displayed with the subtitle 'Select your top institutions and send the scores that matter.' A navigation bar includes a back arrow and 'Cancel and Return to the Dashboard'. The main content area is titled 'Step 1 of 3: Search Colleges and Scholarships' and includes instructions: 'Enter the name or 4-digit code of any college or scholarship. Get codes from the SAT Code List booklet. Click **Advanced Search** to also enter a country, state, or city.' A blue sidebar prompt asks 'Got a fee waiver code?' with the instruction 'Enter your fee waiver code or ask your counselor for more details.' It features a text input field labeled 'Enter fee waiver code' and a 'Submit' button. At the bottom, there's a section '3 Score Recipients Selected' with a search bar labeled 'Search by name or code' and a magnifying glass icon. Below this is a '+ Advanced Search' button.
