**SAT WEEKEND**

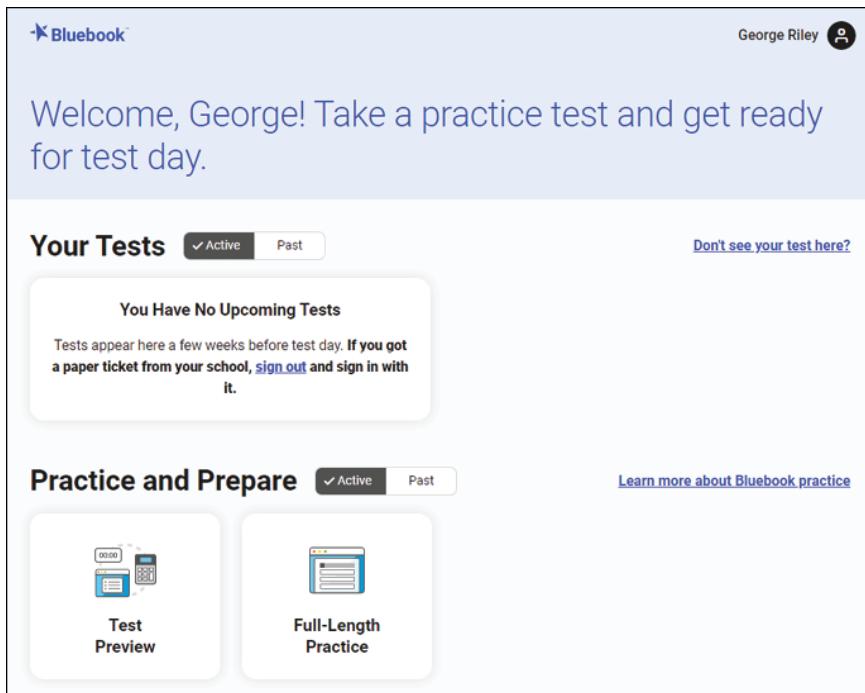

# Practice Quick Start Guide

## Practice for the SAT in 10 Simple Steps

1. Download Bluebook™ and get access to full-length practice tests from the makers of the SAT®.

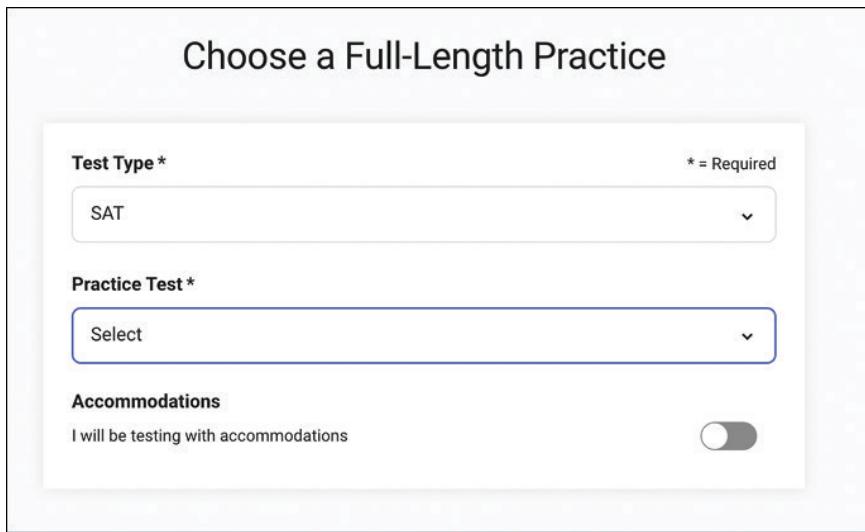

2. On the Bluebook homepage, navigate to **Full-Length Practice** under Practice and Prepare. You can also select **Test Preview** to get a peek at the app's built-in tools and familiarize yourself for test day. Resume a practice test you've already started from here.

The screenshot shows the Bluebook homepage. At the top, it says "Welcome, George! Take a practice test and get ready for test day." Below this, the "Your Tests" section is visible, with a button to "View Active" and "Past" tests. It displays a message: "You Have No Upcoming Tests" and a note: "Tests appear here a few weeks before test day. If you got a paper ticket from your school, [sign out](#) and sign in with it." To the right, there is a link "Don't see your test here?". Below this, the "Practice and Prepare" section is shown, with a "Test Preview" icon and a "Full-Length Practice" icon. There is also a link "Learn more about Bluebook practice".

3. Select your **Test Type** and **Practice Test** from the dropdown menus available. If you plan on testing with accommodations, select the switch next to "I will be testing with accommodations" to apply them to your practice test.

The screenshot shows a configuration dialog titled "Choose a Full-Length Practice". It includes fields for "Test Type \*", which is set to "SAT", and "Practice Test \*", which is set to "Select". There is also a section for "Accommodations" with a toggle switch that is currently off. A note at the bottom says "I will be testing with accommodations".

Then, select which accommodations you want to apply to your practice test.

**Accommodations**

**Reading Extended Time**

Select

**Math Extended Time**

Select

**Breaks**

Breaks: extra  
 Breaks: extended  
 Breaks: as needed

**Other**

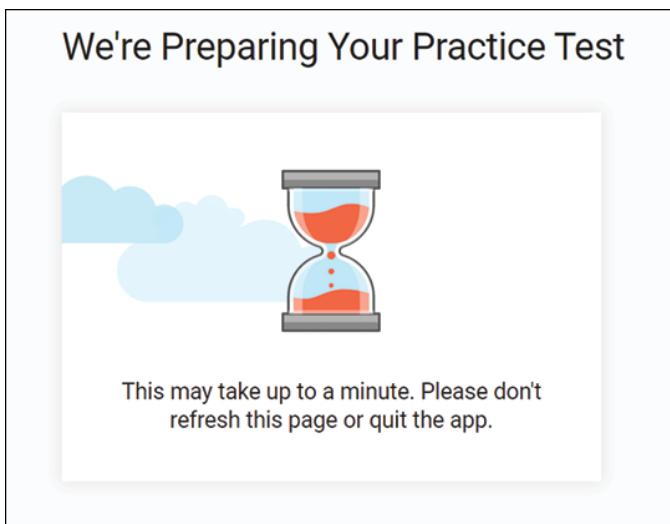

Select

[Why don't I see my accommodation listed here?](#)

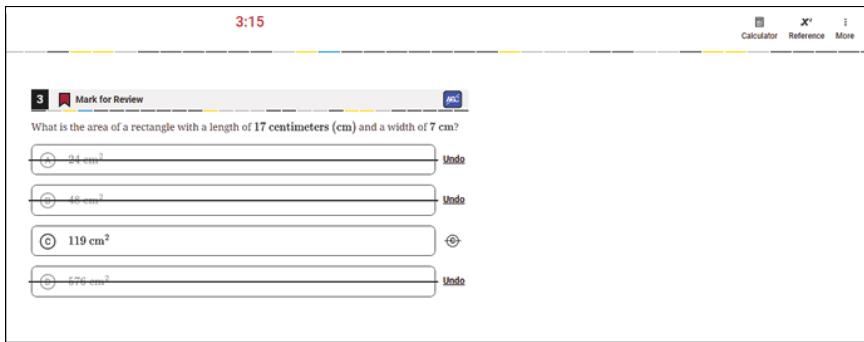

If you're approved to take the SAT with a paper test book accommodation, your practice tests are available on our website at [satsuite.collegeboard.org/digital/digital-practice-preparation/practice-tests/linear](https://satsuite.collegeboard.org/digital/digital-practice-preparation/practice-tests/linear). If you require printed braille materials on test day, contact College Board Services for Students with Disabilities (SSD) customer support for a braille practice option by emailing [ssd@info.collegeboard.org](mailto:ssd@info.collegeboard.org) or by calling 844-255-7728. Learn more about accommodations and how to request them before test day at [accommodations.collegeboard.org](https://accommodations.collegeboard.org).

**IMPORTANT:** While anyone is welcome to use our accommodated practice tests, using these practice materials does not mean you have been approved to test with a particular accommodation.

4. Follow the onscreen instructions as indicated below, then start practicing! We recommend taking at least 1 practice test with the timer and allowing for breaks as you would on test day. However, you can practice your way, pause as needed, and, when you're ready to resume practice, pick up right where you left off.

5. During the practice test, use the Bluebook built-in tools previously mentioned in step 2. You'll find **Mark for Review** and **Option Eliminator** on the questions themselves. The rest of the tools can be found in the top right corner. Depending on what section you're taking, you'll see icons for a **Built-In Calculator** and **Reference Sheets**, a **Highlights & Notes** tool, and more.

3 3:15

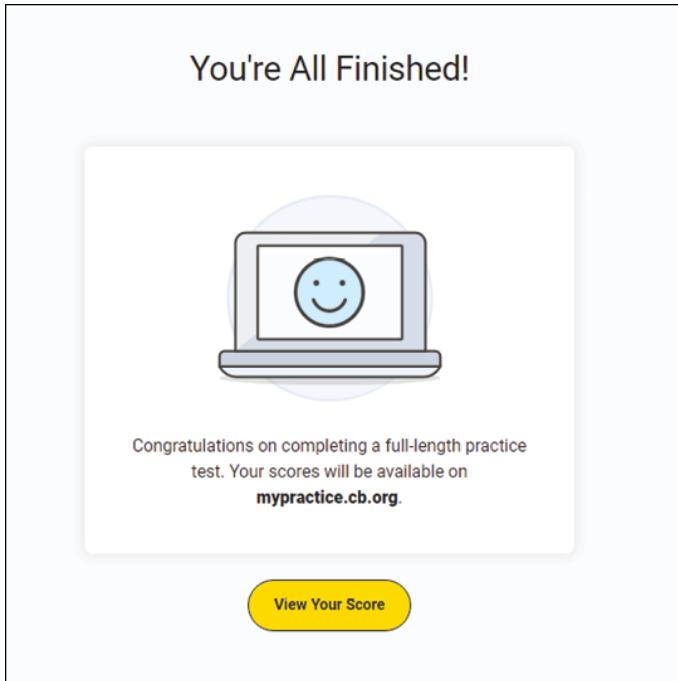

Mark for Review

What is the area of a rectangle with a length of 17 centimeters (cm) and a width of 7 cm?

A 119 cm<sup>2</sup>  B 10 cm<sup>2</sup>  C 119 cm<sup>2</sup>  D 576 cm<sup>2</sup>

Calculator Reference More

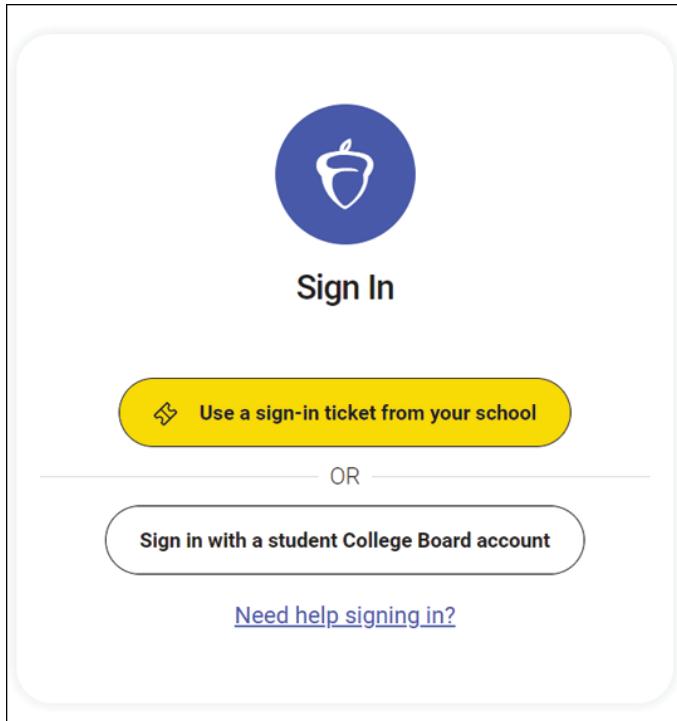

6. After you complete the practice test, click **View Your Score**.

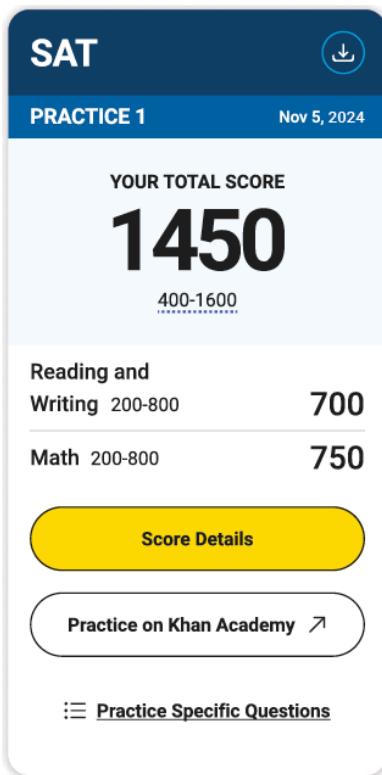

### Tip

All students taking the SAT can now toggle between scientific and graphing options in the embedded Desmos calculator. Students can switch options at any point in the exam.

7. Sign in to **My Practice** using the same login credentials you used for Bluebook to retrieve your scores.

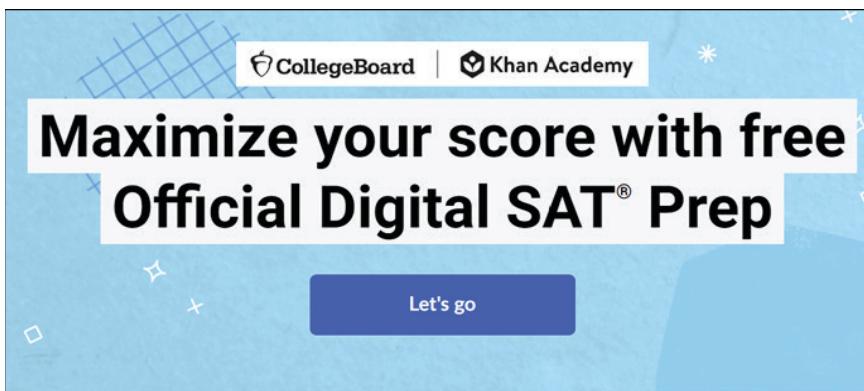

8. Once on My Practice, review your scores. Then, select **Score Details**.

9. To get the most out of your practice tests, review your answers, the correct answers, and explanations under **Actions**. You can also view a set of **Practice Specific Questions**, which My Practice will generate for you based on the results of your practice test to provide additional review in the areas where you have the greatest opportunities for improvement.

Question	Section	Correct Answer	Your Answer	Actions
1	Reading and Writing	B	B; Correct	<a href="#">Review</a>
2	Reading and Writing	D	D; Correct	<a href="#">Review</a>
3	Reading and Writing	C	C; Correct	<a href="#">Review</a>
4	Reading and Writing	B	B; Correct	<a href="#">Review</a>
5	Reading and Writing	A	A; Correct	<a href="#">Review</a>
6	Reading and Writing	D	D; Correct	<a href="#">Review</a>
7	Reading and Writing	A	A; Correct	<a href="#">Review</a>
8	Reading and Writing	A	A; Correct	<a href="#">Review</a>
9	Reading and Writing	A	A; Correct	<a href="#">Review</a>
10	Reading and Writing	D	B; Incorrect	<a href="#">Review</a>

10. By clicking the **Practice on Khan Academy** button on your scorecard or Score Details page, you can go to Khan Academy® directly from My Practice and take advantage of free Official SAT Prep that includes thousands of practice questions, videos, lessons, and hints to help you build the skills needed.
