

Spring 2024

DIGITAL TESTING

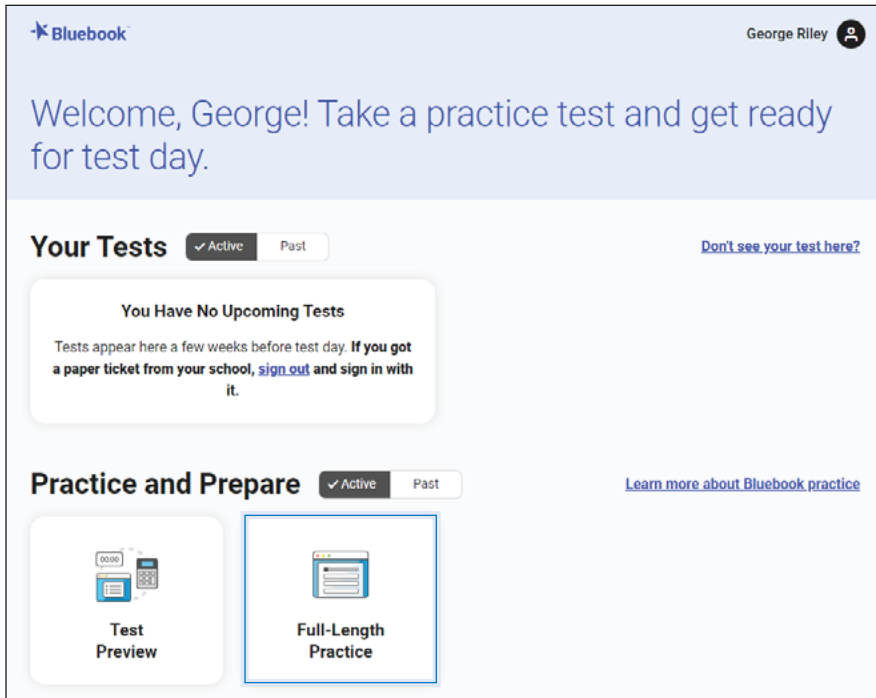

Practice Quick Start Guide

Prepare for the SAT in 10 Simple Steps:

1. Download **Bluebook™** and get access to full-length practice tests from the makers of the SAT.

2. On the Bluebook homepage, navigate to **Full-Length Practice** under Practice and Prepare. You can also select **Test Preview** to get a peek at the app's built-in tools and familiarize yourself for test day. Resume a practice test you've already started from here.

3. Select your **Test Type** and **Practice Test** from the drop-down menus available. If you plan on testing with accommodations, select the switch next to "I will be testing with accommodations" to apply them to your practice test.

The screenshot shows a form titled "Choose a Full-Length Practice". The form has three main sections: "Test Type *", "Practice Test *", and "Accommodations". The "Test Type *" section has a dropdown menu with "SAT" selected. The "Practice Test *" section has a dropdown menu with "Select" selected. The "Accommodations" section has a toggle switch for "I will be testing with accommodations", which is currently turned off. A legend indicates that "*" = Required.

Then, select which accommodations you want to apply to your practice test.

[Why don't I see my accommodation listed here?](#)

If you require linear, paper-based accommodations, available on our website, satsuite.collegeboard.org/digital/digital-practice-preparation/practice-tests/linear, or printed braille, contact SSD customer support by emailing ssd@info.collegeboard.org or by calling 844-255-7728. You can also go to accommodations.collegeboard.org for more details.

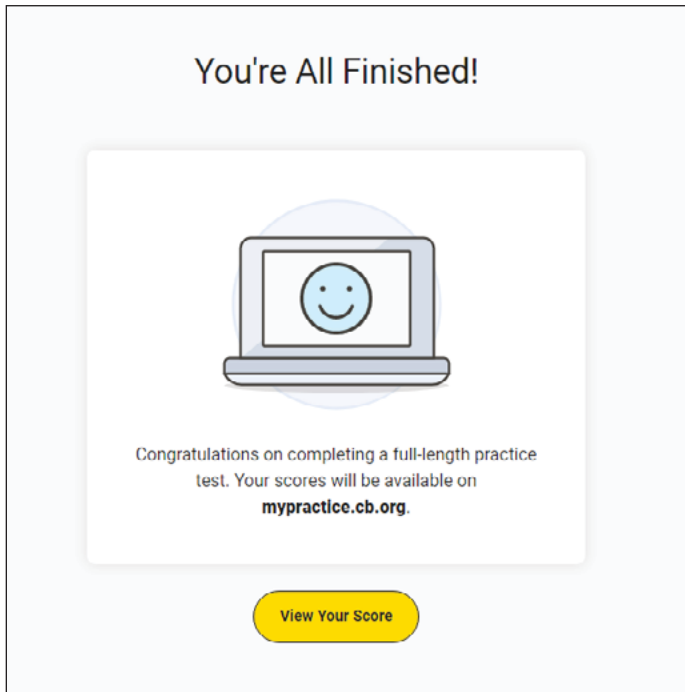

4. Follow the onscreen instructions as indicated in the following screenshot, then start practicing! We recommend taking at least 1 practice test with the timer and allowing for breaks as you would on test day. However, you can practice your way, pause as needed, and, when you're ready to resume practice, pick up right where you left off.

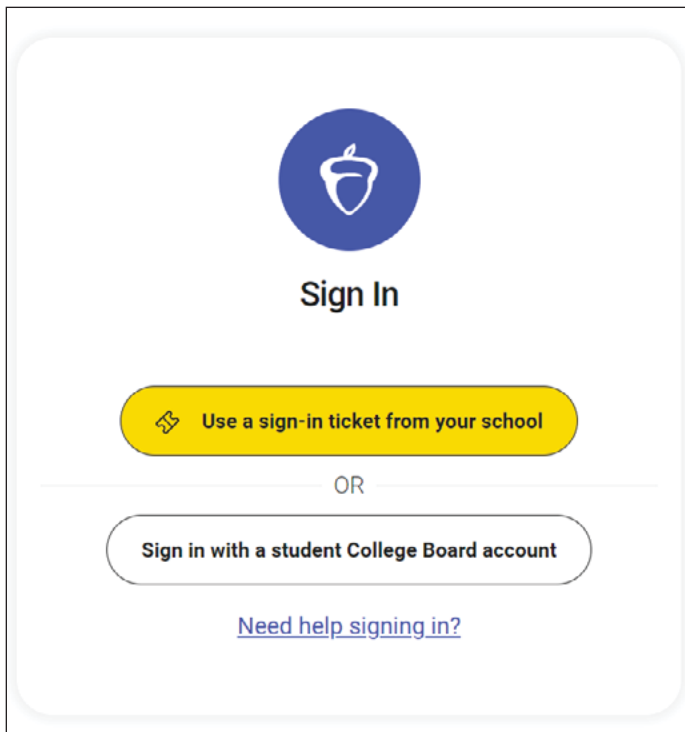

5. During the practice test, use the Bluebook built-in tools previously mentioned in step 2. You'll find Mark for Review and Answer Strikeout on the questions themselves. The rest of the tools can be found in the top right corner. You'll see icons for a Built-In Graphing Calculator and Reference Sheets, as well as a More option that includes Annotation tools.

6. After you complete the practice test, click **View Your Score**.

7. Sign in to **My Practice** to retrieve your scores.

8. Once on My Practice, review your scores. Then, select **Score Details**.

October 17, 2022

SAT Practice 3

Your Total Score
1020
400 to 1600

Your Reading and Writing Score **710**
200 to 800

Your Math Score **310**
200 to 800
